

## Instructions: Linking HIN with derma2go

These instructions describe step by step how to link an existing derma2go account with a HIN ID. Requirements: An active HIN ID and an existing derma2go account.

### 1. Activate the HIN Client and sign in

Make sure the HIN Client is started and that you are signed in with your HIN ID.

### 2. Open derma2go

Open the derma2go website in your browser.

### 3. Log in with email and password

Sign in using your derma2go credentials (email and password).

### 4. Complete two-factor authentication

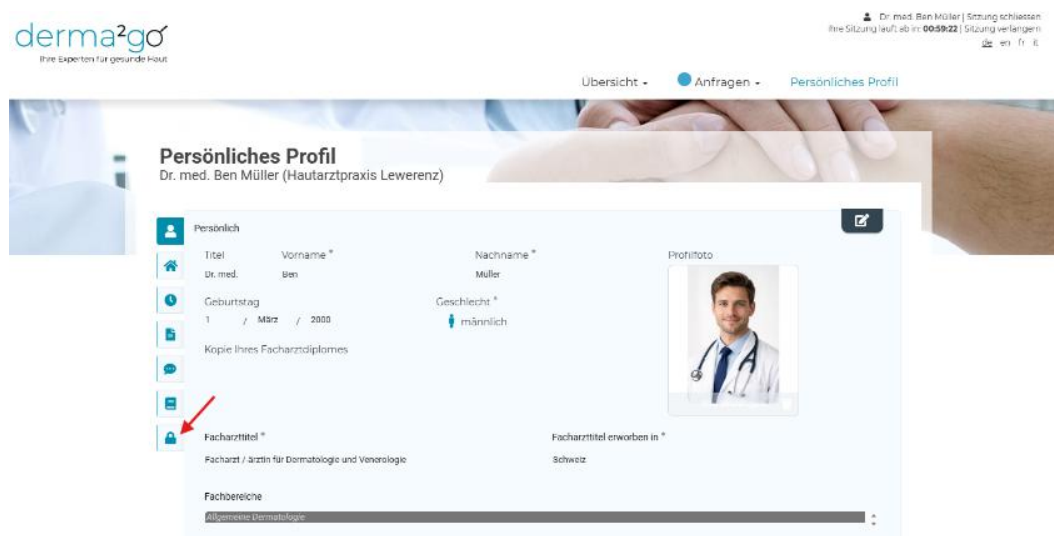

Enter the security code you received and confirm the sign-in.

### 5. Open your personal profile

After logging in successfully, click on “Persönliches Profil” in the top right corner.

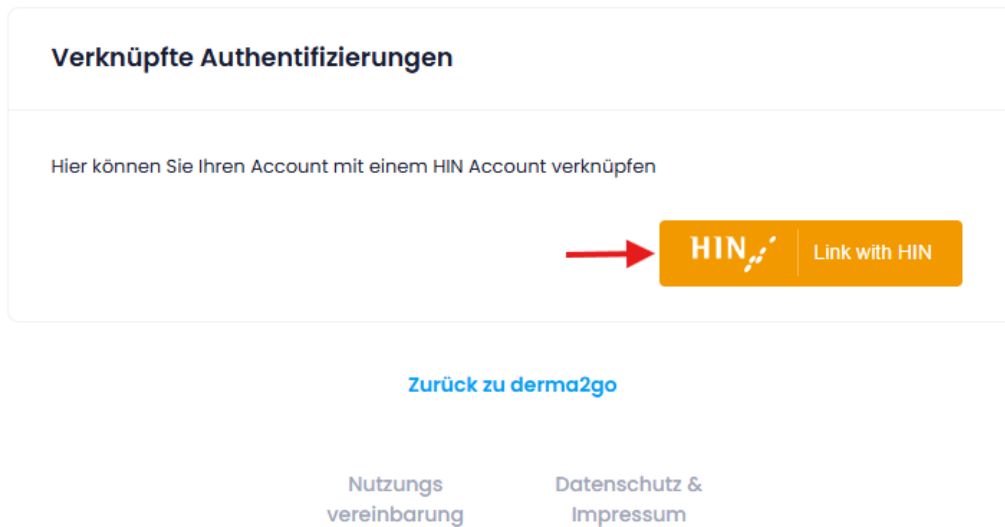

### 6. Click on “Account und Sicherheit”

In the left-hand side menu, click on the “Account und Sicherheit” icon (lock symbol). The menu looks as follows:

## 7. Open the “Verknüpfte Authentifizierung” section and select “Link with HIN”

Scroll down to the “Verknüpfte Authentifizierung” section and click on “Link with HIN”:

## 8. Linking completed

After a short loading time, your HIN ID is successfully linked with derma2go. You can then use Single Sign-On (SSO) via HIN.
